Pittsfield Township Civil War Monument

Trustees signed a resolution which gave permission to the Pittsfield Historical Society to apply for and accept status as a Lorain County Historic Landmark.

This monument, composed of Barre and Quincy granite, is 22' and 4" tall. It stands on a pad of sandstone at the NW corner of the State Routes 58 and 303, in a landscaped and lighted area with a smaller monument dedicated to all Pittsfield residents that have served in Spanish American War, WWI, WWII, Korean War and Vietnam.

The monument is composed of numerous layers. The first two serve as a base while the third layer is engraved with the names of the four battles in which Township residents fought.

Two layers above that is a layer of dark granite 40" high with the names of all 102 residents that fought in the Civil War along with the names of the 21 who died listed on the south side of the monument.

The next layer contains the symbols of the four branches of the military engraved in cut circles. Above that are two layers of flat pyramidal shape, the highest having the names of four generals engraved on its four sides.

Finally, there are four layers of granite with the statue of a single soldier standing at rest with a flag in left hand on top.

Significance: In the spring of 1895 the citizens of the township of Pittsfield passed a 2 mill levy for the purpose of erecting a monument, to be

located in Pittsfield Center, to honor the service and sacrifice of those who had served and those who had died in the Civil War.

The exact location for the monument was the subject of some debate, with letters written to the local press.

The Soldiers' and Sailors' Association of Lorain County held their annual 18th annual reunion in Pittsfield Center and dedicated the monument on August 13, 1894.

This Civil War monument is now 125 years old and is a testament to civic pride and dedication. It is truly remarkable that this was the only structure remaining after the 1965 Pittsfield tornado.
